

Weekly U.S. State/Territory Analysis

Week Ending November 8, 2020

The following list of U.S. states, districts and territories highlight the year-over-year changes on credit card purchases, debit card purchases and ATM transactions for PSCU Owner credit unions. This week highlights the changes for week 45, **comparing the results from the week ending November 8, 2020 to the week ending November 10, 2019**. The location results refer to the home address of the member conducting the transaction, and not the location of the transaction. The output represents 'same store' transactions, so the same credit unions are in both sets of data, for both 2019 and 2020. Each week, the percentage changes are sorted from highest to lowest in their respective categories and ranked with the highest being number 1, and the lowest as number 54.
